SUMMARY

Frontend Developer skilled in React, Tailwind, and JavaScript, with a strong understanding of modern UI development, responsive design, and API integration. Currently a 3rd-year BE IT student looking for an internship to apply technical skills in industry-level projects.

SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS

Tools: Git, GitHub, VS Code, NPM

Other: Responsive Design, API Integration, Debugging, Problem Solving

PROJECTS

Swiggy Clone – React + Tailwind

GitHub — Live Link

- Developed a scalable Swiggy frontend clone using modern React architecture.
- Implemented restaurant listing, search, filters, dynamic routing, and reusable components.
- Focused on responsive UI, performance optimization, and clean component structure.

PassMint – Password Generator (React)

Live Link

- Built a secure and customizable password generator using React.js.
- Allows users to control password length and character types (uppercase, lowercase, numbers, symbols).
- Implemented clean UI with real-time password generation and copy-to-clipboard functionality.
- Designed with a focus on usability, security awareness, and responsive layout.

EDUCATION

BE — Information Technology

2023–2027

Mumbai University

- Theem College of Engineering — Third Year

ACHIEVEMENTS / CERTIFICATIONS

3rd Rank – Web Development (Innovathon 2.0, 2025)

- Secured 3rd position in an interdepartmental web development competition held at Theem College of Engineering.
- Recognized for UI design, implementation, team collaboration, and problem-solving.
